Built to last 15-25 years **BOTH workmanship AND materials guaranteed for 10 years!**

100% recyclable

What an All American Air Filter will do for heating/air-conditioning systems:

- Generate a continuous passive electrostatic charge attracting dirt like a magnet
 - Keep the coils clean
 - Increase equipment life and reduces maintenance
 - Hold the dirt like a magnet and will not release into the equipment
 - No dendrites
-High quality of media creates better load gain minimizing pressure drop
Which allows equipment to breath easier
Which reduces electric bills, extends the life of the equipment and reduces needed maintenance!

What an All American Air Filters will do for the air you breathe

- Removes up to 99% of the dust, pollen, mold & bacteria
- Arrests 70% or 90% of all airborne contaminants
- Protects your lungs
- Saves time and hassle of finding the 'right' filter for your equipment
